PROFESSIONAL SUMMARY

Computer and Electrical Engineering student at Texas A&M University (Class of 2028) with hands-on experience in Python, C++, Java, and full-stack web development. Pursuing international academic expansion through a Summer 2026 Computer Architecture program in Northern Ireland, including visits to global semiconductor facilities. Demonstrated ability to lead cross-functional teams, build client-facing products, and translate complex technical concepts across disciplines. Seeking opportunities in AI, embedded systems, or hardware design where engineering fundamentals and global perspective drive impact.

EDUCATION

Texas A&M University

Bachelor of Science in Computer and Electrical Engineering

College Station, Texas

Expected May 2028

- GPA: 3.23/4.00
- Relevant Coursework: Data Structures & Algorithms, Circuit Analysis, Digital Logic Design, Python for Engineers

Queen's University Belfast — Study Abroad

Computer Architecture & Design Program

Belfast, Northern Ireland

Summer 2026

- Completing two-course sequence in Computer Architecture & Design and Advanced Computer Architecture & Design; curriculum covers processor design, memory hierarchy, and hardware-software interfacing.
- Visiting corporate and research facilities across Ireland and the UK, including AMD headquarters in Ireland, to develop cross-cultural professional communication skills and international industry exposure.

TECHNICAL SKILLS

Languages: Python, C++, Java, HTML/CSS, JavaScript

Tools & Platforms: Git/GitHub, Wix, Squarespace, Framer, Canva, Microsoft Suite, Google Suite

Core Competencies: Embedded systems research, full-stack web development, AI research, cross-cultural communication, team leadership, stakeholder management

PROFESSIONAL EXPERIENCE

FORME — Freshman Leadership Organization

Funds Manager & Lead Website Developer

College Station, Texas

May 2025 – Present

- Secured organizational funding by negotiating sponsorships with 10+ regional businesses, including Blue Baker, sustaining programming and philanthropy initiatives for 56 freshman members.
- Engineered and deployed a recruitment website using Wix, Squarespace, and Framer, centralizing onboarding and public communications for an organization serving 56 members during peak recruitment season.
- Manage end-to-end organizational budget — allocating funds across philanthropy, operations, and events — maintaining zero budget overruns across two consecutive semesters.

John Newcombe Tennis Ranch

Resident Professional Coach — Co-Court Leader & Counselor

New Braunfels, Texas

June 2024 – August 2024

- Directed skill development sessions for 60+ campers per week, including Division I and semi-professional athletes, delivering structured feedback and measurable technique improvement.
- Managed safety, scheduling, and wellbeing for three cabin groups of 25 campers each, maintaining zero incidents across a four-week residential program six hours from home.
- Adapted communication style across age groups and competitive levels — a framework later applied to building a private instruction network across four Texas markets.

Private Tennis Instruction — Independent

Head Coach

Longview / College Station / Bryan / San Antonio, TX

May 2024 – Present

- Scaled independent coaching practice to 20+ active students across four Texas markets; developed structured curriculum and tiered pricing model without external support.
- Built client base through multi-channel outreach including social media, community referrals, and direct business development.

Spring Hill High School

Longview, Texas

Interim Head Tennis Coach

May – August 2024 & May – August 2025

- Led daily varsity practices across two summer seasons; served as primary contact for 25+ athlete families, delivering structured progress updates and developmental guidance.

LEADERSHIP & INVOLVEMENT

TAMU Fish Camp

College Station / Palestine, Texas

Counselor & Senior Peer Leader

March 2025 – Present

- Returning for second year as counselor, expanding role to mentor first-year counselors and support Fish Camp chairs in program logistics and leadership development.
- Selected from competitive applicant pool to co-lead 10 incoming freshmen through Texas A&M's flagship orientation program; participated in 3 multi-day leadership development retreats logging 40+ hours of structured training.

PROJECTS

- RFID Racer Tracking System (In Progress): Architecting an embedded sensor network using RFID technology to autonomously track competitors in a 200+ person annual race event (Gladiator Dash); conducting cost-benefit analysis and feasibility study on hardware procurement, reader placement, and data pipeline — replacing a third-party vendor solution contracted at significant cost.
- AI & Transportation Industry Research: Conducted independent study analyzing generative AI's impact on autonomous vehicles and logistics optimization through surveys and online research; synthesized findings evaluating disruption vectors and economic implications across the transportation sector.
- FORME Recruitment Platform: Designed and shipped a recruitment website from zero, supporting public communications and onboarding for a 56-member student organization — integrating Canva, Framer, and Squarespace into a unified brand system.

ACTIVITIES & INTERESTS

Activities: TAMU Fish Camp (Senior Counselor), FORME Fundraising & Web Development, Private Tennis Coaching Network (4 markets), Study Abroad — Northern Ireland 2026

Interests: Competitive tennis, embedded systems design, autonomous vehicle technology, hardware architecture, translating coaching leadership frameworks into engineering team dynamics
